

MORT & CO

THE DISTINCTION OF PRECIOUS METALS

Founded in the United Kingdom, Mort & Co stands as a name synonymous with trust, discretion, and excellence in the trade of precious metals and investment bullion.

From our earliest beginnings, we have remained steadfast in our purpose:
to connect discerning clients with the world's most secure and
enduring stores of value - gold and silver.

Every transaction we undertake is guided by integrity and expertise.
Our clients range from first-time investors to private collectors and
family offices seeking to diversify and preserve wealth.

We source only from globally recognised refineries and mints, ensuring that each bar
or coin represents not just a sound investment, but a tangible expression of quality.

At Mort & Co, we believe true value lies not only in the metal itself, but in the
confidence and care with which it is acquired and held.
Mort & Co - Where heritage meets investment confidence.

WHY PRECIOUS METALS?

Timeless Assets in a Changing World

Across centuries and continents, gold and silver have served as the ultimate symbols of stability and enduring worth.

In an era of economic complexity and digital abstraction, precious metals offer something few assets can — tangible permanence.

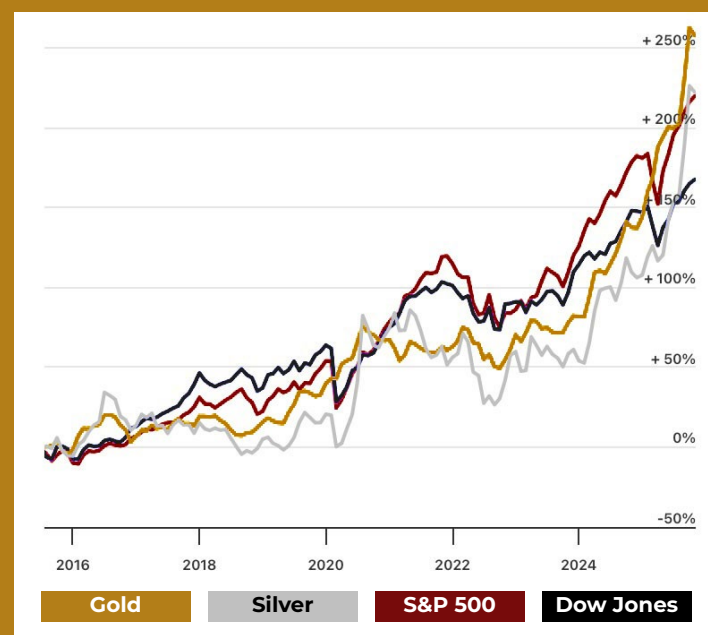

The Modern Case for Bullion

- **Preservation of Wealth:** Gold and silver hold intrinsic value, providing a safeguard against inflation and currency erosion.
- **Portfolio Balance:** Precious metals move independently of traditional markets, offering balance and resilience during uncertainty.
- **Global Liquidity:** Recognised and traded worldwide, bullion can be realised swiftly and securely.
- **Tangible Ownership:** Physical bullion provides complete control — a personal store of value beyond digital systems.

For those seeking to protect and enhance their wealth, bullion remains both an anchor and an opportunity - a timeless choice in a transient age.

Gold and Silver have outperformed the S&P 500 and the Dow Jones over the past decade.

GRADED COINS

Graded coins combine beauty, security, and lasting value. Professionally authenticated by trusted services like PCGS or NGC, each coin is verified for authenticity, purity, and condition. Sealed in protective holders, they're safe from damage and tampering. With their blend of gold's intrinsic worth and collectible rarity, graded coins appeal to both investors and collectors, making them a smart, secure, and elegant addition to any portfolio.

GOLD COINS

Heritage You Can Hold

Gold coins unite the allure of artistry with the power of pure investment. Their beauty and recognisability make them one of the most distinguished ways to hold physical gold.

At Mort & Co, we curate an exceptional selection of investment-grade gold coins, each meticulously struck to the highest standards of purity and precision.

Notable Gold Coins

- **The Britannia:** The embodiment of British strength and elegance.
- **The Sovereign:** A coin steeped in history and regarded as the "chief coin of the world."
- **The Maple Leaf:** Canada's symbol of purity and craftsmanship.
- **The Krugerrand:** The classic bullion pioneer, first minted in 1967.
- **The American Eagle:** A bold icon of assurance and value.

Each piece carries both intrinsic and historic worth, offering liquidity, collectability, and prestige in equal measure. Gold coins remain a natural choice for those who value beauty, heritage, and financial discretion.

SILVER COINS

Accessible Brilliance

For investors seeking versatility and value, silver coins offer an elegant introduction to the world of precious metals.

Their affordability and universal recognition make them a compelling complement to any portfolio.

Mort & Co offers a carefully chosen range of 999 fine silver coins, including the Silver Britannia, Maple Leaf, and

American Eagle - each a statement of quality in its own right.

Silver's enduring appeal lies in its dual nature - both an industrial metal of necessity and a traditional store of wealth.

Whether purchased for collection or investment, silver coins provide a refined yet accessible entry point to precious metal ownership.

GOLD AND SILVER BARS

Bullion Bars

Pure Form, Absolute Value

For those who favour simplicity and efficiency, bullion bars represent the purest expression of wealth preservation.

Mort & Co supplies an extensive range of LBMA-approved gold and silver bars, sourced exclusively from internationally accredited refiners such as PAMP Suisse, Valcambi, Heraeus, and Metalor.

The Mort & Co Standard

- **Exceptional Purity:** Every bar is certified 999.9 fine.
- **Trusted Provenance:** Hallmarked and issued with an assay certificate.
- **Efficient Value:** Lower premiums over the metal's spot price.
- **Ease of Custody:** Compact, stackable, and suited to secure storage.

Whether held privately or stored in a vault, gold and silver bars provide uncompromising security and quiet distinction - a lasting cornerstone for generational wealth.

MARKET OVERVIEW & RECENT HISTORY

Strength Through Uncertainty

The past decade has reaffirmed gold and silver’s role as assets of stability in turbulent times.

Global events, from economic shifts to geopolitical unrest, have consistently driven renewed confidence in physical bullion.

- **Gold:** Over the past ten years, gold has steadily appreciated, reflecting investor trust in its enduring value.
- **Silver:** Volatile yet resilient, silver has captured renewed attention for its dual role as both a precious and industrial metal.

Looking Forward

As the financial landscape evolves, investors increasingly recognise that true security lies in tangible assets.

Gold and silver remain timeless constants - unyielding to inflation, immune to digital fragility, and trusted across generations.

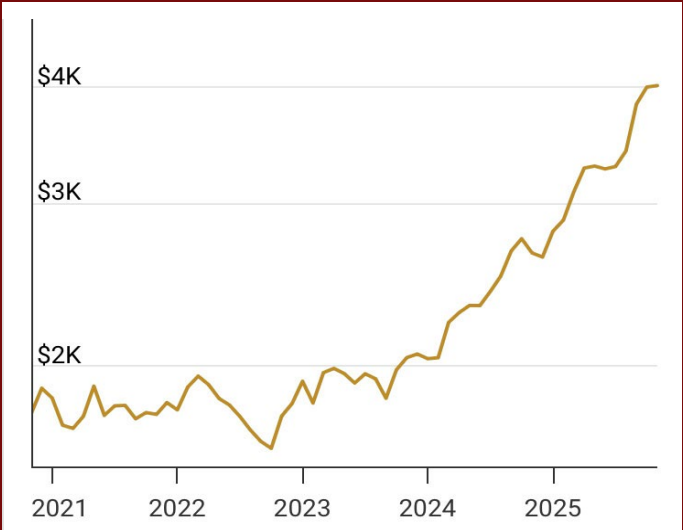

At Mort & Co, our role is to ensure that every client can access these assets with confidence, discretion, and peace of mind.

According to the latest long-term forecast, Gold price will hit \$5000 by the middle of 2027 and then \$10,000 by the end of 2034.

Year	Mid-Year	Year-End	Tod/End,%

FREQUENTLY ASKED QUESTIONS

Q: Are all Mort & Co products authentic?

A: Yes. Every item we supply is sourced exclusively from LBMA-approved refiners and government mints, ensuring absolute authenticity and purity.

Q: Can I sell my metals back to Mort & Co?

A: Yes. We provide an efficient buy-back service at competitive, transparent market rates.

Q: How is my bullion delivered or stored?

A: Clients may choose secure, fully insured delivery to their address or professional vaulted storage through our trusted partners.

Q: What are the tax considerations?

A: In the UK, investment-grade gold is exempt from VAT. Certain coins — including the Gold Sovereign and Britannia — are also exempt from Capital Gains Tax.

Q: How can I begin purchasing with Mort & Co?

A: Our specialists are available to assist first-time and experienced investors alike, offering guidance from selection to secure delivery or storage.

Mort & Co

Mort & Co operates with the utmost discretion and professionalism, serving clients who seek security, privacy, and excellence in their bullion holdings. Every interaction is guided by our principles of clarity, integrity, and personal service.
